Phishing Domain Detection

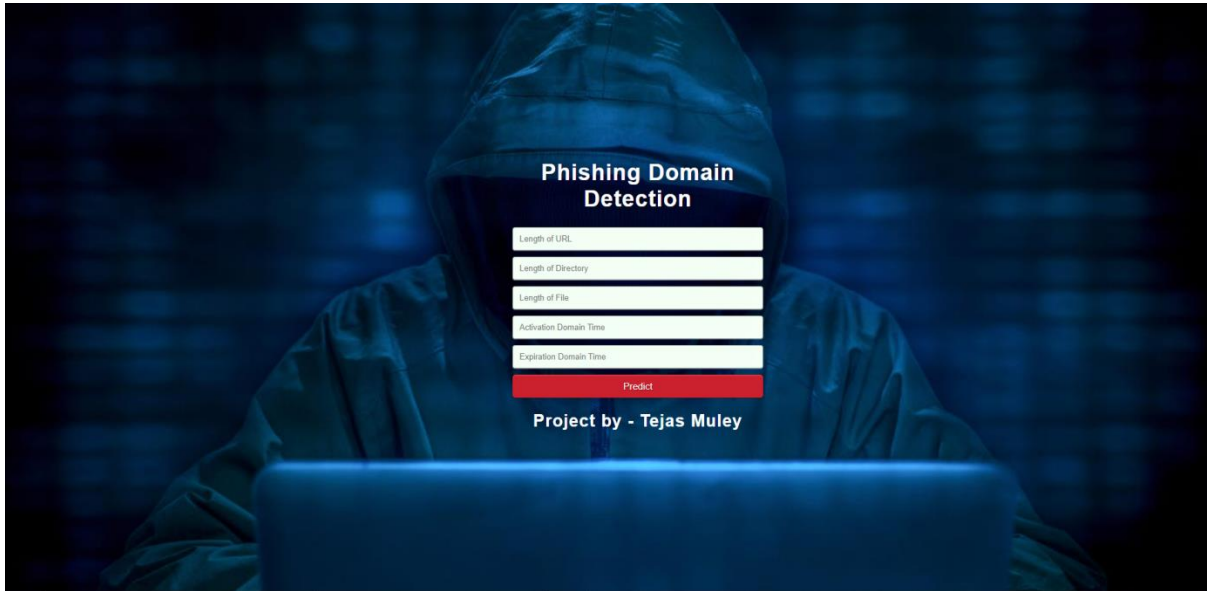

Project by – Tejas Muley

HOME PAGE

We have divided Phishing Domain Detection into Two Sections: -

1. First thing anyone will see is a pop-up window on Homepage which will ask for User Inputs like what is length of Directory, Length of file and Activation and Expiration Domain Time.

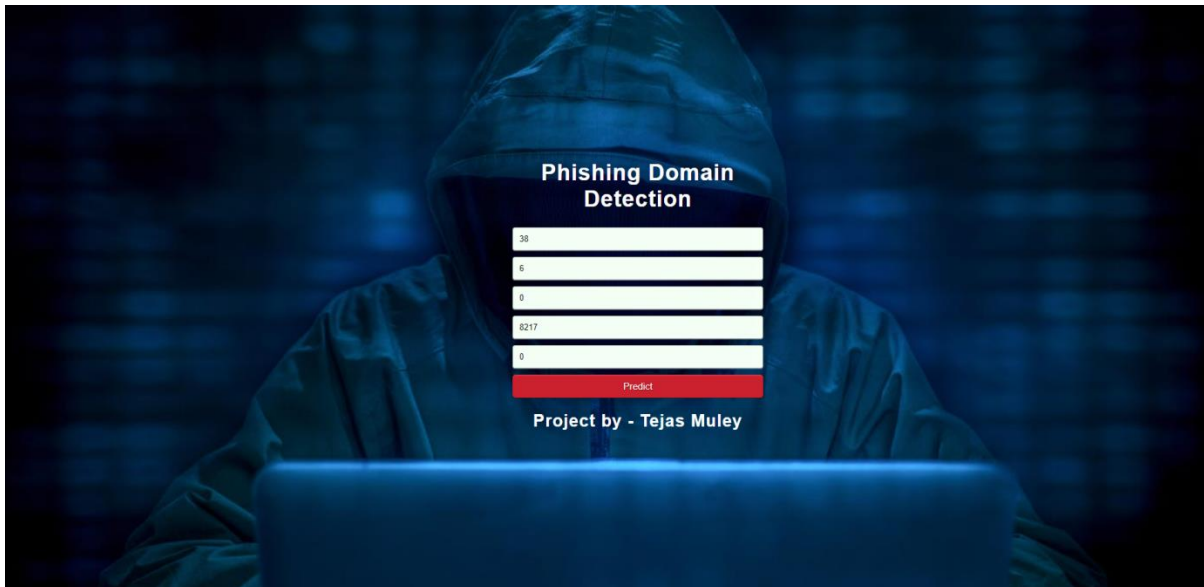

PREDICTION PAGE

2. User will enter the specific mentioned values for prediction. After clicking on predict user will automatically pop-up to prediction window. There are two types of cases 1) site is real/safe 2) site is malicious/fake.

I have mentioned both the scenarios with values and prediction below:

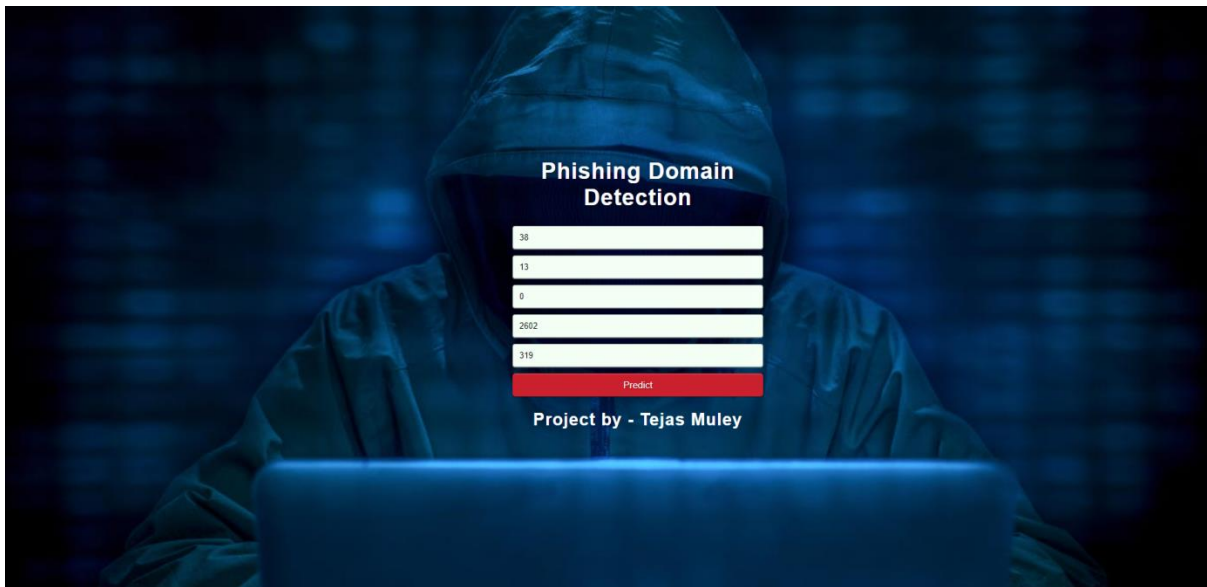

- 1) Site is Safe/Real

- 2) Prediction

1) Site is Malicious/Fake

2) Prediction
